

Project Name	Location	Project Description	Amount Requested
SR426 Traffic Flow Improvement Project	City of Winter Park	To plan, design, engineer, and construct a system of underground conduits and cable to interconnect the traffice signals in the State Road 426 corridor of Winter Park. This will reduce the time spent traveling through the corridor and as a consequence cause less fuel use and less pollutants.	\$160,000.00
Bike/Pedestrian Mobility Project	City of Winter Park	To plan, design, engineer, and construct a pedestrian and bicycle circulation plan to improve pedestrian and bicycle safety and mobility.	\$480,000.00
LYNX Rapid Transit Emphasis Corridors	City of Orlando	The plan, design, and implementation of the LYNX Rapid Transis Emphasis Corridors. This will provide reliable and convenient public transportation in the region	\$5,000,000.00
N. Rock Springs Road / Rock Ridge Boulevard Traffic Signal	City of Apopka	The design and construction of a traffic control signal at North Rock Springs Road and Rock Ridge Boulevard intersection to improve traffic safety and to reduce congestion.	\$125,000.00
Old Dixie Highway / Errol Parkway Traffic Signal	City of Apopka	Design and construction to improve traffic safety and to reduce congestion. on the Old Dixie Highway.	\$125,000.00
Old Dixie Highway Road Widening and pedestrian improvement project, Phase 1	City of Apopka	Road widening to improve traffic flow for resident accessing 441 and the 429. It will also provide pedestrian sidewalks, bike lanes for the nearby school as well as drainage improvements.	\$500,000.00
Veterans Memorial Bridge	City Island Park, City of Daytona Beach	The demolition of the existing bridge and the deisgn, engineering and construction of a new Veterans' Memorial Bridge in Volusia County, Florida.	\$34,400,000.00
Construction of the Volusia County (FL) portions of the St. John's River to the Sea Loop Trail, to include environmental reviews, right-of-way acquisition, design, permitting, mitigation, construction and construction management.	City of New Smyrna, City of Titusville	The construction of the Volusia County portion of the St. John's River to the Sea Loop Trail, to include enviromental reviews, right-of-way aquisition, design, permitting, mitigation, construction and construction management.Volusia is one of five counties collaborating on the 230-mile River to the Sea trail through northeast and east central Florida.	\$5,000,000.00
Innovation Way/SR 528 (Beach Line) Interchange (new)	City of Lake Nona	To construct a new intrechange at State Road 528 and Innovation Way in Orange County, Florida.	\$15,000,000.00
US 1 / Dunlawton Streetscape Enhancement Project	City of Port Orange	To enhance the US 1/ Dunlawton Streetscape by constructing traffic improvements that will increase safety and eliminate blighted conditions.	\$10,000,000.00
Widening of West International Speedway Boulevard Expansion (US-92)	City of Daytona Beach	The expansion of U.S. 92, the West International Speedway Boulevard.	\$17,600,000.00

U.S. 1 (Ridgewood Avenue) Corridor Improvements	City of South Daytona	The design and construction of improvements to the U.S. 1 (Ridgewood Avenue) corridor which, when completed, will promote alternative forms of transportation and enhance safety. This will be achieved through the construction of curb replacement and resurfacing to improve vehicular traffic patterns, the installation of two bike lanes (one in each direction) to promote this form of transportation, the installation of decorative sidewalks to enhance the pedestrian experience, the installation of bus pull-off areas so they can safely load and unload passengers, and the addition of landscaping and street furniture to beautify the corridor.	\$3,000,000.00
School Crossing / Pedestrian Intersection Improvements	City of South Daytona	The redevelopment of three intersections frequently utilized by children attending South Daytona Elementary School to give them safe and effective pedestrian crossings.	\$1,200,000.00
Federal Roadway Resurfacing Project	City of South Daytona	The resurfacing of federally eligible roadways located in South Daytona that are in need of maintenance.	\$1,052,000.00
Seminole County – SR 46 Regional Evacuation Route	City of East Mims	To develop and conduct an environmental review for the State Road 46 Regional Evacuation Route in Seminole County, Florida.	\$2,400,000.00
SR 426/CR 419 Improvement Project	City of Oviedo	To acquire and construct a right-of-way for SR426/CR419.	\$19,959,200.00
Design and Construct Intelligent Transportation System on SR 50, SR 405 and SR 407	Kennedy Space Center	The design and construction of an Intelligent Transportation System on State Road 50 and State Road 405 between I-95 and US 1 to serve Kennedy Space Center.	\$2,500,000.00
Veterans Medical City Connector	Boggy Creek	The design and construction of the Veterans' Medical City Connector in Orlando, Florida. Once completed, the 3 mile connector will provide direct, non-toll road access to the new Veterans Affairs Medical Center of Orlando, which is expected to open in 2012.	\$36,000,000.00
Center of Intelligent Technology Research for Infrastructure and Transportation Systems (CITRIS)	City of Orlando	Research, development and implementation of integrated intelligent transportation systems infrastructure.	\$10,000,000.00
US 17-92 at Park Avenue	City of Maitland	The design and construction of an additional traffic lane on Park Avenue from US 19-92 to the east. To close the existing ramp to through traffic and to replace the existing signals at two intersections. This will reduce weaving and congestion on US 17-92 at Park Maitland School.	\$480,000.00
